Education

Cal Poly Pomona

Pomona, Ca

Degree: Computer Engineering

Experience

Liner Inc.

Glendale, CA

Founder, Software Engineer

Mar 2025 - Present

- Develop and fix websites for various industries, boosting their revenue and generating clientele
- **Increased the overall business revenue by 200%** through strategic project delivery and client acquisition
- Introduced and taught new tools such as ESM module, GSAP, Express, and Next.js to the team
- Manage connections with clients, handle business talk, and find new clientele.

Schoolers

Glendale, CA

Fullstack Developer

Dec 2023 - Apr 2025

- **Reduced the frontend loading time by 13%**, added middleware for error and user authentication
- Integrated into a more reliable database compared to what was before (from Firebase to MongoDB)
- Trained developers on modern front-end practices, including Tailwind CSS and component-based architecture.

Crypto Warriors

Los Angeles, CA

Fullstack Developer

Apr 2021 - Nov 2023

- Designed custom ERC-20 and ERC-721 tokens, including minting and royalty logic, for NFT and DAO platforms
- Audited smart contract for vulnerabilities like reentrancy, overflow/underflow, and front-running, ensuring secure DeFi protocol deployment.
- Integrated wallet functionality (Metamask, WalletConnect) and managed user authentication using cryptographic signatures.
